Subject: RE: RSC Request for Deployment - URGENT; Gold King Mine Spill
R6 Water Team 8-10-15.xlsx

Hi Blake,

Below is the email Dawn just sent to Kim & Angela with an attached list.

I put together an excel file that has Water Team members, work numbers and their supervisors.

I would send out a broadcast email, I will forward you one I have done in the past. You need to let them know what training is required, how long, supervisor consent, etc.

The file I sent only has the list of members. Not all of these members are current on their Health and Safety. Once you get a list of people who are available and interested in deploying and have their supervisor approval, you will need to determine if they qualify to go. I can help you out with that (Nichole will be the person in the future).

Thanks,

Dawn Ison

Subject: RSC Request for Deployment - URGENT; Gold King Mine Spill

Importance: High

The REOC has been activated for the Gold King Mine Spill. This is an immediate activation of the R6 RSC.

The Region is requesting 30 EPA staff be immediately deployed to the Farmington NM area as community relations support. Deployment is for potentially a week (min 5 days deployment).

Preference is for a min of 24-hour HAZWOPER, and medical monitoring.

Please have staff, that have supervisor approval to deploy, email Michael Torres and cc Mikeal Adams and Susan Webster.

Thank you for you help! Susan
